### § 300.32 Vessel licenses.

(a) Each vessel fishing in the Licensing Area must have a license issued by the Administrator for the licensing period being fished, unless exempted by § 300.39. Each licensing period begins on June 15 and ends on June 14 of the following year.

(b) Upon receipt, the license or a copy or facsimile thereof must be carried on board the vessel when in the Licensing Area or Closed Areas, and must be produced at the request of authorized officers, authorized party officers, or authorized inspectors. A vessel may be used to fish in the Licensing Area if the license has been issued but not yet received, provided that the license number is available on board.

(c) The total number of licenses that may be issued and valid at any point in time is 45, five of which shall be reserved for fishing vessels of the United States engaged in joint venture arrangements.

(1) For the purpose of this section, the licenses reserved for vessels engaged in joint venture arrangements are referred to as "joint venture licenses," and the remaining licenses are referred to as "general licenses."

(2) A joint venture arrangement is one in which the subject vessel and its operators are engaged in fishing-related activities designed to maximize the benefits generated for the Pacific Island Parties from the operations of fishing vessels licensed pursuant to the Treaty, as determined by the Administrator. Such activities can include the use of canning, transshipment, vessel slipping and repair facilities located in the Pacific Island Parties; the purchase of equipment and supplies, including fuel supplies, from suppliers located in

the Pacific Island Parties; and the employment of nationals of the Pacific Island Parties on board such vessels.

(d) Licenses are issued by the Administrator. The Administrator will issue licenses only for applications that have been approved by the Regional Administrator. The Regional Administrator's approval is indicated by the signature of the Regional Administrator on the part of the application form labeled "Schedule 1." Upon approval by the Regional Administrator of a license application, the complete application will be forwarded to the Administrator for consideration. Except as provided in paragraph (n) of this section, prior to approving license applications for a given licensing period, the Regional Administrator will issue pre-approvals of license applications that serve the purpose of temporarily reserving approvals up until the time complete applications are due to be received by the Regional Administrator.

(e) The Regional Administrator, in his or her sole discretion, may approve fewer license applications than there are licenses available for any given licensing period or at any given time.

(f) A pre-approval or approval issued by the Regional Administrator pursuant to this section:

(1) Shall not confer any right of compensation to the recipient of such pre-approval or approval;

(2) Shall not create, or be construed to create, any right, title, or interest in or to a license or any fish; and

(3) Shall be considered a grant of permission to the recipient of the pre-approval or approval to proceed with the process of seeking a license from the Administrator.

(g) A pre-approval or approval issued by the Regional Administrator pursuant to this section is subject to being rescinded at any time if the Regional Administrator determines that an administrative error has been made in its granting, false information has been provided by the applicant, circumstances have changed such that the information provided by the applicant is no longer accurate, true or valid, or if the applicant or vessel no longer meets the requirements for licensing under this subpart or under the Act or other applicable law. NMFS will notify
